

Trauma Nursing Core Course

September 11-12, 2017

COURSE DESCRIPTION

ENA developed and implemented the TNCC for national and international dissemination as a means of identifying a standardized body of trauma nursing knowledge. The TNCC is designed to provide the learner with cognitive knowledge and psychomotor skills.

COURSE PARTICIPANTS

The TNCC may be officially attended by registered nurses (RN's). Other health care providers may attend the course as observers. In order to maximize success in the TNCC (Provider), it is recommended that the participant have at least six months of clinical nursing experience in an emergency care setting. It is assumed that the course participant possesses generic nursing knowledge, has an understanding of emergency care terminology, and has familiarity with standard emergency equipment.
