

Program Description

The CardioObstetrics Clinic is a specialized cardiology clinic for women with: (1) established heart disease pre-pregnancy, during pregnancy, delivery, and post-partum; (2) pregnant women with symptoms of heart disease; (3) women with previous cardiac complications of pregnancy. We are closely linked to the University of Ottawa (UOHI) Heart Ins Women's Heart Health Centre, UOHI CardioPrevent PostPartum Rehabilitation Program and UOHI Adult Congenital Heart Disease Clinic. We collaborate with obstetricians, maternal fetal medicine physicians, anesthesiologists, neonatologists, internal medicine specialists, endocrinologists, medical geneticists, and pediatric cardiac.

Consultations in this clinic require referral from a physician or nurse practitioner. Referrals are quickly triaged according to urgency of symptoms, diagnosis, and expected date of delivery. Please complete the form in its entirety. Incomplete forms will be returned. Please include all relevant medical reports, consult notes, and/or cardiac test results.

Please note patients known to the UOHI Adult Congenital Heart Disease clinic with complex congenital heart disease (e.g. Tetralogy of Fallot, Eisenmenger's, cyanotic congenital heart disease) should be referred there first.

Patient Demographics

Surname:		First name:		DOB (yyyy/mm/dd)		Health Card No. & Version Code	
Address:				City		Province	Postal Code
Telephone		Alternate Phone		Sex	Preferred Language		

Clinical Information (*fields are mandatory)

Reason for Referral:*		Cardiac History* (check if applicable)	
Maternal age* _____ Gest age* _____		<input type="checkbox"/> Peripartum cardiomyopathy <input type="checkbox"/> Other cardiomyopathy / heart failure <input type="checkbox"/> Non-complex congenital heart disease (AS, AV, SD) <input type="checkbox"/> Native valve dysfunction (BAV, rheumatic etc.) <input type="checkbox"/> Mechanical valve(s) _____ <input type="checkbox"/> Bioprosthetic valve(s) _____ <input type="checkbox"/> Arrhythmias (SVT, AF/flutter, VT, bradyarrhythmias) <input type="checkbox"/> Cardiac devices (pacemaker, ICD, CRT) <input type="checkbox"/> Cardiac chest pain / previous coronary syndrome <input type="checkbox"/> Pericardial disease <input type="checkbox"/> Prepregnancy counselling in cardiac patients <input type="checkbox"/> IVF / assisted reproduction in cardiac patients <input type="checkbox"/> Other (please specify): _____ _____ _____
