

APPENDIX C - ATTESTATION
Attestation Form

**Prepared in accordance with section 15 of the
Broader Public Sector Accountability Act, 2010 ("BPSAA")**

TO: The Board of Ontario Health

FROM: Cameron Love,
Chief Executive Officer,
The Ottawa Hospital

Date: June 10, 2026

RE: April 1, 2025 to March 31, 2026 ("the Applicable Period")

On behalf of The Ottawa Hospital (the "Hospital") I attest to:

- the completion and accuracy of reports required of the Hospital pursuant to section 6 of the BPSAA on the use of consultants;
- the Hospital's compliance with the prohibition in section 4 of the BPSAA on engaging lobbyist services using public funds;
- the Hospital's compliance with any applicable expense claims directives issued under section 10 of the BPSAA by the Management Board of Cabinet;
- the Hospital's compliance with any applicable perquisite directives issued under section 11.1 of the BPSAA by the Management Board of Cabinet;
- the Hospital's compliance with any applicable procurement directives issued under section 12 of the BPSAA by the Management Board of Cabinet (subject to exceptions in Schedule A),
- the Hospital's compliance with any applicable directives on the preparation and publication of business plans and other business or financial documents issued under section 13 of the BPSAA by the Management Board of Cabinet, during the Applicable Period.

In making this attestation, I have exercised care and diligence that would reasonably be expected of a President & Chief Executive Officer in these circumstances, including making due inquiries of Hospital staff that have knowledge of these matters.

I further certify that any material exceptions to this attestation are documented in the attached Schedule A. Dated at Ottawa, Ontario this June 10, 2026.

Cameron Love, CEO

Signature

I certify that this attestation has been approved by the Board of The Ottawa Hospital on June 10, 2026.

Michael Tremblay, Chair, Board of Directors

Signature

SCHEDULE A to Attestation

1. Exceptions to the completion and accuracy of reports required in section 6 of the BPSAA on the use of consultants. **No known exceptions**
2. Exceptions to the Hospital's compliance with the prohibition in section 4 of the BPSAA on engaging lobbyist services using public funds. **No known exceptions**
3. Exceptions to the Hospital's compliance with the expense claims directive issued under section 10 of the BPSAA by the Management Board of Cabinet. **No known exceptions**
4. Exceptions to the Hospital's compliance with the perquisites directive issued under section of the BPSAA by the Management Board of Cabinet; and [to be added once ss. 15(1)(c.1) of the Act is proclaimed into force]. **No known exceptions**
5. Known exceptions to the Hospital's compliance with the procurement directive issued under section 12 of the BPSAA by the Management Board of Cabinet.

- The Hospital has been guided by the five key principles outlined in the Procurement Directive: quality service delivery, value for money, accountability, transparency and process standardization as well as the trade agreement rules effective in 2017, Canadian Free Trade Agreement (CFTA) and the Canada-EU Comprehensive Economic and Trade Agreement (CETA) when making decisions on its operational needs for goods and services. The Hospital has endeavored to comply fully with the requirements of the Procurement Directive and has worked diligently to bring itself into full compliance by enhancing its policies and processes. However, there may be circumstances in which the Hospital has failed to comply with the strict letter of the Procurement Directive and these exceptions are noted below.
- As anticipated by BPS Procurement Directive mandatory requirements 7.2.21 (non- competitive procurement) and 7.2.18 (term of agreement modifications), non-material exceptions have occurred in the form of extension of contracts. These exceptions were made based on The Hospital's strategic business decisions to align the close of active contracts with that of other related products or services contracts; or for the purposes of entering a group procurement organisation contract to achieve optimal value for money. Exceptions were also made when the time periods required to conduct a complex and comprehensive open procurement extended beyond the end of the current contract for an essential product or service. Given that these services are needed to maintain the effective operations of the Hospital, decisions to extend some contracts were made to ensure continuity of service.

The Hospital is mostly compliant with the mandatory requirement 7.2.22 Contract Management. Non-material exceptions relate to managing and documenting supplier performance. Management continues to develop and implement a Third-Party Risk Management Program to assess risk and evaluate performance of suppliers.

- When required, the Hospital has engaged in limited tendering in circumstances where it is permissible to do so and in full compliance with BPSPD and relevant trade agreements. Where

certain goods and services have not been procured in compliance with the requirements, they have been strategically single sourced with the support and approval of senior management and/or the Board, to maintain operational effectiveness, quality of patient care and value for money. It is critical in the healthcare industry, that the organization manages risk and maximizes the value they receive from the use of public funds and that procurement activities result in the delivery of the right product or service at the right time and right place.

6. Exceptions to the Hospital's compliance with the preparation and publication of business plans and other business or financial documents issued under section 13 of the BPSAA by the Management Board of Cabinet. **No known exceptions**

Use of Consultants - Open
